

**Session Program**

**15-16 Oct 2008**

**Workshop on Timing Detectors: from particle  
physics to medical applications**

***Applications in Physics and medicine (I)***

IPN Lyon

# Thursday 16 October

13:30

## Applications in Physics and medicine (I)

Session | Location: IPN Lyon

13:30-14:00 **The ATLAS Forward Physics project**

**Speaker**

Christophe Royon

14:00-14:30 **Use of fast timing for positron beam**

**Speaker**

Patrick Nedelec

14:30-15:00 **Chicago PET Development and Recent Progress in Digital TOFPET**

**Speaker**

Chin-Tu Chen

15:00-15:30 **Timing resolution of scintillation detectors: A Monte Carlo analysis**

**Speaker**

Woon-Seng Choong

15:30
