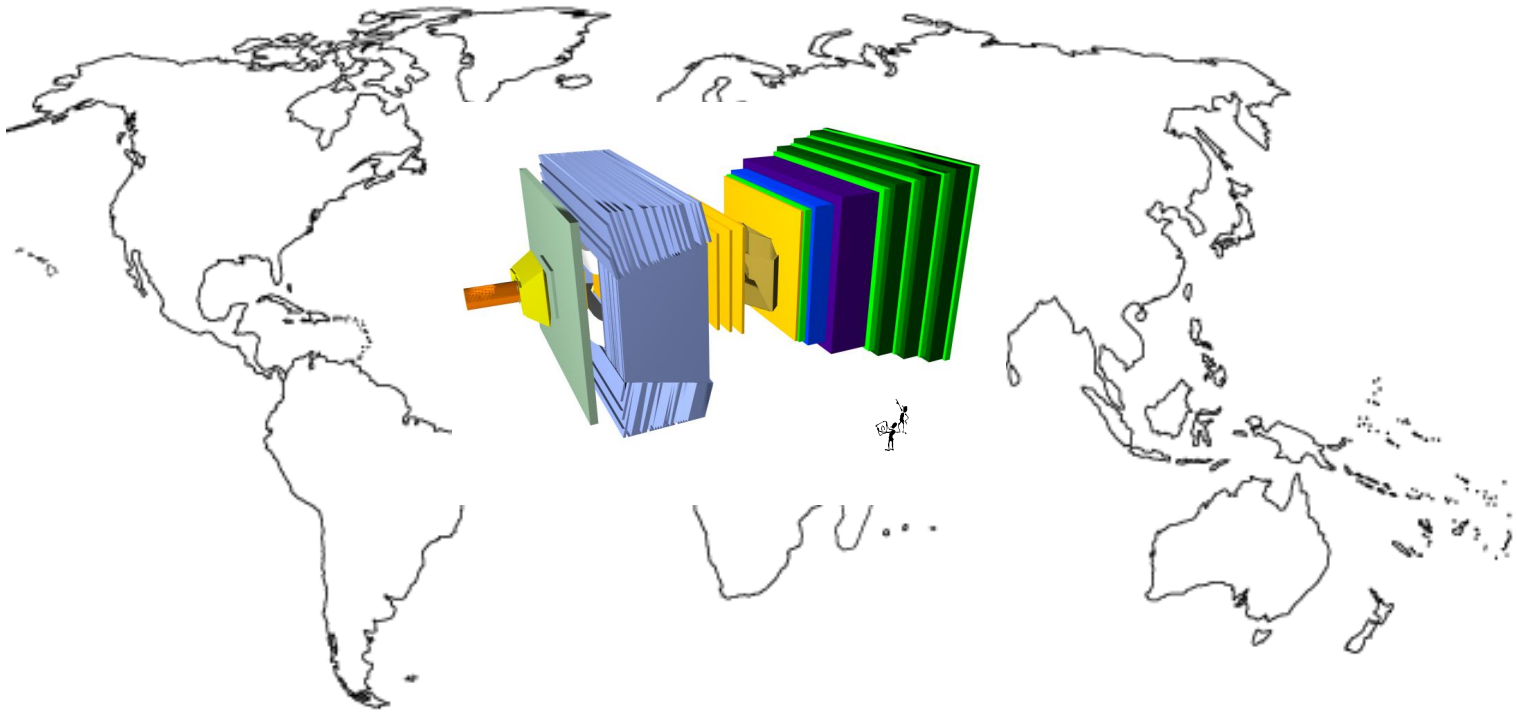
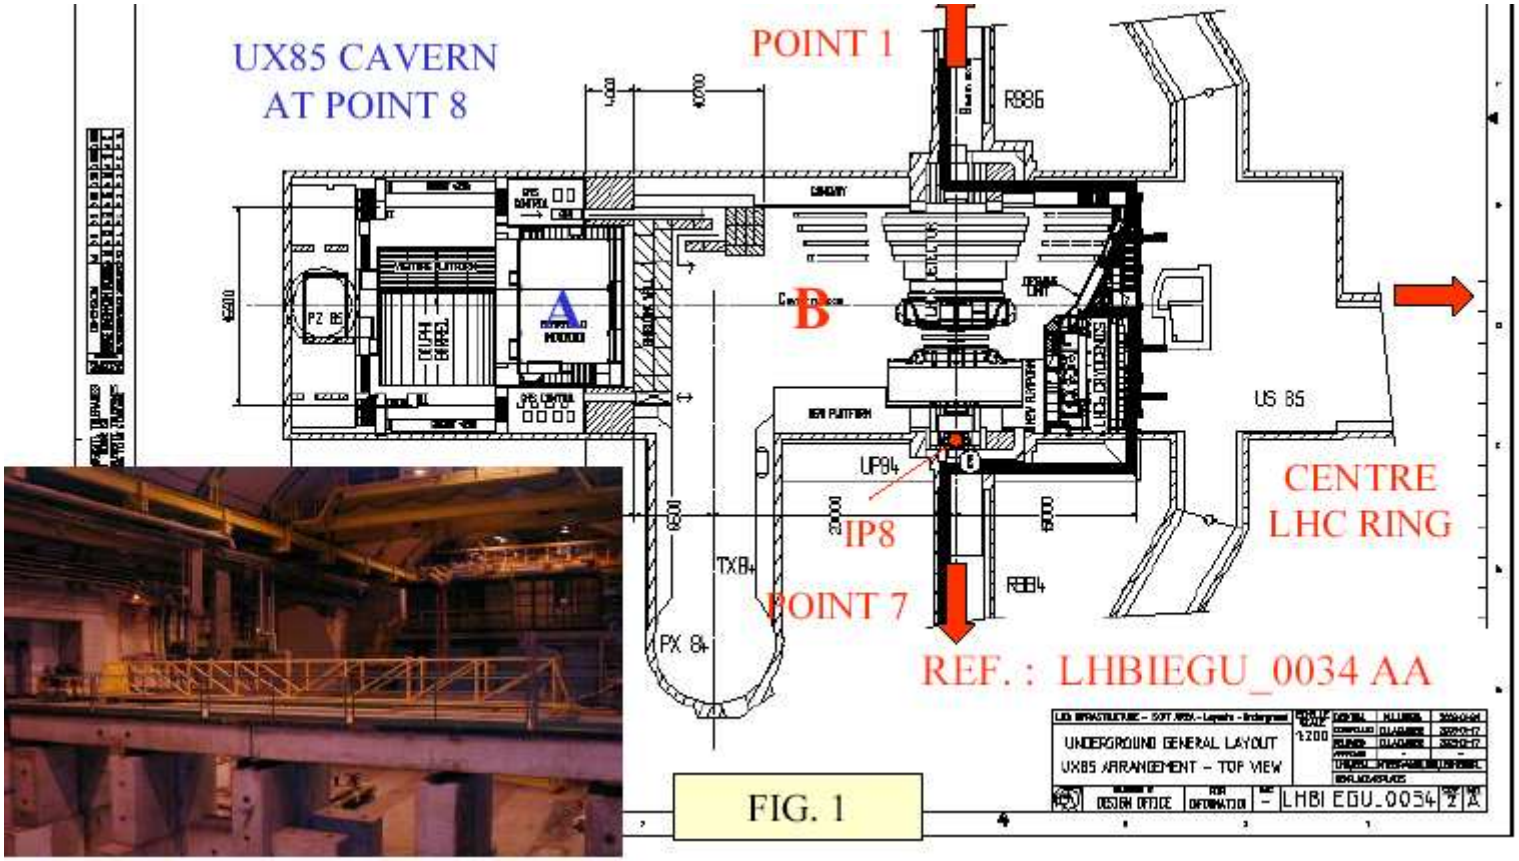
LHCb outreach etc



DELPHI/LHCb itinerary



- DELPHI has been moved to its final position.
  - Platform being built around, ready in ~June
  - Second elevator stop to be organized, discussion with TIS etc
  - Question of number of visitors

Information material

- Things in preparation
  - Getting an outreach contact person in each sub-detector
    - Getting pictures, information and status
  - Posters in the pit and upstairs
    - Mostly LHC/LHCb oriented, DELPHI an example of a detector
  - Event display
  - Screen showing live the assembly of the LHCb detector
  - Updating LHCb brochure
- *Comment on CERN photo database*
  - *Merging all into one database making use of keywords ?*
- Photographer Peter Ginter
  - LHCb has paid its share
  - Putting together an LHCb calender of interesting activities

"Extending ETT/EC"...

- Many professional spare-time activities and initiatives around CERN
  - Should be mentioned and included in the CERN "a la carte"
  - Very powerful national programs
  - Lot of experience and competence to "extend" EC with
  - Examples:
    - Preparing material for itineraries
    - Finish teachers (Riitta)
    - Greek school classes extended visits (Mike)
    - Annual Greek teachers course in the pipeline (Mike)
    - Nordic school classes extended visits (Kristina Gunne)
    - Annual Swedish teachers course since 1992 (270 teachers!) (Richard)
    - etc....
- YPP@CERN
