

Session Program

29 June 2009 to 3 July 2009

**EDS'09: 13th International Conference on
Elastic & Diffractive Scattering**

Elastic Scattering and Total Cross-Section II

CERN, 503/1-001 - Council Chamber

Tuesday 30 June

08:30

Elastic Scattering and Total Cross-Section II

Session | Location: CERN, 503/1-001 - Council Chamber

08:30-08:55

The Froissant Bound for Inelastic Cross Sections

Speaker

Andre Martin

Location

CERN, 503/1-001 - Council Chamber

08:55-09:20

ATLAS CNI Experiment - Total Cross Sections and Luminosity

Speaker

Matthieu Heller

Location

CERN, 503/1-001 - Council Chamber

09:20-09:45

Theoretical Aspects of High Energy Elastic Nucleon Scattering

Speaker

Vojtech Kundrat

Location

CERN, 503/1-001 - Council Chamber

09:45-10:10

The Total Cross Sections at the LHC: Models and Experimental Consequences

Speaker

Jean-Rene Cudell

Location

CERN, 503/1-001 - Council Chamber

10:10-10:35

Proton-Proton Elastic Scattering at LHC and Proton Structure

Speaker

Richard Luddy

Location

CERN, 503/1-001 - Council Chamber

10:35
