

Session Program

29 June 2009 to 3 July 2009

**EDS'09: 13th International Conference on
Elastic & Diffractive Scattering**

Soft Diffraction I

CERN, 503/1-001 - Council Chamber

Monday 29 June

10:45

Soft Diffraction I

Session | **Location:** CERN, 503/1-001 - Council Chamber

10:45–11:15

Theoretical overview on soft diffraction

Speaker

Alexei Kaidalov

11:15–11:35

Description of soft diffraction in the framework of reggeon calculus. Predictions for LHC.

Speaker

Martin Poghosyan

11:35–12:05

Soft Scattering Re-Visited

Speaker

Uri Maor

12:05–12:25

Aspects of Higgs production at the LHC

Speaker

Errol (Asher) Gotsman

12:25–12:45

Color fluctuations and gap survival probability at LHC

Speaker

Mark Strikman

12:45–13:00

One-particle inclusive distribution in the unitarized pomeron models

Speaker

Evgenij Martynov

13:00
