

Session Program

25-28 Nov 2003

NA60 Collaboration Meeting
***Brainstorming meeting on data
reconstruction issues***

CERN

Tuesday 25 November

14:00

Brainstorming meeting on data reconstruction issues

Session | Location: CERN, 559-R-006

14:00-14:15 General software status and near-future perspectives

Speaker

Ruben Shahoian

Location

CERN, 559-R-006

14:05-14:20 CPU (and storage) resources; how to use them efficiently

Speaker

Alberto Masoni

Location

CERN, 559-R-006

14:10-14:25 First look at burst by burst info; questions on data quality

Speaker

Andre David

Location

CERN, 559-R-006

14:15-14:30 Run logbook and access to PVSS info

Speaker

Pedro Martins

Location

CERN, 559-R-006

14:20-14:35 Pixel data selection and raw data first impressions

Speaker

Karoly Banicz

Location

CERN, 559-R-006

14:25-14:40 Status of background generation

Speaker

Atila

Location

CERN, 559-R-006

14:30-14:45 Status of Kalman fitting

Speaker

Rob Veenhof

Location

CERN, 559-R-006

16:00
