

# LCWS 2004

## Thursday 22 April 2004

### SUSY studies (10:30 - 12:00)

| time  | [id] title   | presenter     |
|-------|--|---------------|
| 10:30 | [159] Reconstructing sleptons in cascade decays at the LC                        | , M. Berggren |
| 10:45 | [160] Sfermion production at a Linear Collider                                   | , K. Kovarik  |
| 11:00 | [161] Precision Mass determination for stop quarks using charm tagging           | , A. Finch    |
| 11:15 | [162] Stop production in polarized photon-photon collisions                      | , N. Skachkov |
| 11:30 | [163] NLO-MSSM corrections to squark pair production in photon-photon collisions | , S. Berge    |
| 11:45 | [164] Collider phenomenology of light strange-bottom squark                      | , K. Cheung   |
