

Session Program

19-23 Apr 2004

LCWS 2004

New physics at TEV scale and precision EW studies

Le Carré des Sciences, Paris- France

Tuesday 20 April

08:30

New physics at TEV scale and precision EW studies

Session | Location: Salle Stourdze

08:30-08:45 **How to study weakly coupled neutral vector bosons**

Speaker

Ayres Freitas

08:50-09:05 **Aspects of new gauge boson searches at LHC/LC**

Speaker

Sabine Riemann

09:10-09:25 **The Non-Commutative Standard Model at a Photon Collider**

Speaker

Juergen Reuter

09:30-09:45 **Using radiated photons to tag new physics**

Speaker

Sreerup Raychaudhuri

09:50-10:05 **Charge asymmetry in $gg \rightarrow l+l-, \text{neutr.}$ with polarized photons**

Speaker

Ilya Ginzburg

10:05
