

# LCWS 2004

## Wednesday 21 April 2004

### SUSY studies (14:00 - 15:30)

time	[id] title	presenter
14:00	[235] Study of neutralino production using tau identification	, B. Sobloher
14:15	[236] CP Violation in SUSY	, S. Hesselbach
14:40	[237] Probing the Majorana nature and CP properties of neutralinos	, S. Y. Choi
14:55	[238] Slepton-flavour violation	, Reinhold Rueckl
15:15	[239] Correlating LSP decay properties with neutrino mixing angles	, W. Porod
