

**Session Program**

**14-15 May 2004**

**CP Violation and Nonstandard Higgs Physics**

***CP and CP violation in the Higgs sector***

CERN (VRVS: neptune), 40-S2-A01

# Friday 14 May

09:00

## CP and CP violation in the Higgs sector

Session | Location: CERN (VRVS: neptune), 40-S2-A01

09:00-09:10

### Welcome

**Speaker**

Kraml, S.

09:10-09:40

### CP studies of the Higgs sector

**Speaker**

Godbole, R.

09:40-10:10

### Status of predictions for Higgs production at the LHC

**Speaker**

Zeppenfeld, D.

10:10-10:40

### Two-Higgs-doublet models

**Speaker**

Krawczyk, M.

10:40-11:10

### Coffee Break

11:10-11:40

### MSSM Higgs sector with CP violation

**Speaker**

Lee, J.S.

11:40-12:00

### Search for neutral Higgs bosons in CP-violating MSSM scenarios at OPAL

**Speaker**

Ferrari, P.

12:00-12:20

### CPsuperH / Feynhiggs comparison

**Speaker**

Heinemeyer, S.

12:20-12:40

### Large mixing in the CP violating Higgs sector in the decoupling limit

**Speaker**

Kalinowski, J.

12:40-13:00

### Higgs bosons in the two-doublet model with explicit CP violation

**Speaker**

Dubinin, M.

13:00-14:30

### Lunch

14:30
