

# CERN: The Future of Information Technology

---

## *Modes of partnership*

- Consultancy – skills transfer
- PIPSS – funding “win-win” collaborative partnerships
- Consortium projects – partner to gain technology
- Licensing – for Intellectual Property
- Spinout formation – with Seed Fund support

# CERN: The Future of Information Technology

---

## *Web-based databases*

- CERN Technology Database  
[www.cern.ch/ttdb](http://www.cern.ch/ttdb)
- Searchable technology database at  
[www.pparc.ac.uk/TechData](http://www.pparc.ac.uk/TechData)
- Searchable grants database at  
[www.pparc.ac.uk/gow/intro.asp](http://www.pparc.ac.uk/gow/intro.asp)

# CERN: The Future of Information Technology

---

## *Forthcoming KITE club events*

- CERN awareness seminars in Leatherhead and Harwell 22/23.6.04
- DTI ITS mission to CERN 28-30.6.04
- CERN Industry Showcase 16.9.04
- Scintillators and Active Materials – October 2004
- Software for Games Developers – October 2004
- Cryogenics and vacuum technology – October 2004
