# HEP Requirements

Jeff Templon  
Insert Function Here

EGEE is a project funded by the European Union under contract IST-2003-508833

# Contents

- HEP Requirements

# HEP Requirements

- HEPICAL document series
  - HEPICAL
    - The original version (2002)
  - HEPICAL prime
    - Consists of HEPICAL plus clarifications, one subtraction, and a few additions
  - HEPICAL-II
    - Focuses on analysis use cases
    - Heavier data & metadata components, more advanced job dependency structures
  - Accessible from the [GAG Home Page](#)
- ARDA document
  - Accessible from [USCMS pages](#)
  - Often stated as a requirement
  - Better referred to as an *architecture definition* and a *mandate*
