

OPAL Week

Monday, 5 July 2004

QCD - IT Auditorium (09:40 - 10:55)

time	[id] title	presenter
09:40	[4] Update on QCD coherence studies using particle correlations in limited momenta region	EDWARD SARKISYAN-GRINBAUM
10:00	[3] Update on Sigma-anti-baryon correlations	PETER BOCK
10:20	[2] Study of the charged particle multiplicity distribution and its moments in hadronic Z0 decays	EDWARD SARKISYAN-GRINBAUM
10:40	[5] Contribution to the Study of 4-Jet Events at LEP1	HANNES JEREMIE
