

10th Workshop on Electronics for LHC and future Experiments, Boston USA

Thursday, 16 September 2004

Plenary session P7 (15:30 - 17:10)

time	[id] title	presenter
15:30	[47] Trends for Analog Design in ULSI CMOS processes	GIOVANNI ANELLI
15:55	[48] Linear transmission via fiber optics of analogue current-signals using the Optically-Coupled Current-Mirror Architecture	DANIEL VICTOR CAMIN
