

Session Program

13-17 Sept 2004

**10th Workshop on Electronics for LHC and
future Experiments, Boston USA**

Parallel session B3

Boston Marriott Hotel, Boston USA

Tuesday 14 September

16:10

Parallel session B3

Session | Location: Boston Marriott Hotel, Boston USA

16:10-16:35

The final design of the ATLAS Trigger/DAQ Read-Out-Buffer Input (ROBIN)

Speaker

Mattias Mueller

16:35-17:00

Integration study and first test results of the CMS Muon Barrel Alignment system

Speaker

Dezco Novak

17:00-17:25

Very high dynamic range and high sampling rate VME digitizing boards for physics experiments

Speaker

Dominique Breton

17:25-17:50

The ALICE Data-Acquisition Read-out Receiver Card

Speaker

Csaba Soos

18:00
