

10th Workshop on Electronics for LHC and future Experiments, Boston USA

Wednesday, 15 September 2004

Parallel session A5 (14:00 - 16:10)

time	[id] title	presenter
14:00	[20] Experience with Large-Scale Industrial Production Considering the CMS Tracker Analog Optohybrids	MARKUS FRIEDL
14:25	[22] Radiation-hard ASICs for Optical Data Transmission in the ATLASPixel Detector	AMIR RAHIMI
14:50	[21] Radiation tolerance tests for key components of the ALICE TOF Tdc Readout Module	PIETRO ANTONIOLI
15:15	[23] Packaging technology for the electronics of the ALICE LHC experiment	HARTMUT GEMMEKE
15:40	Break and poster session
