

Session Program

25-29 Jul 2004

**International Workshop on Radiation
Imaging Detectors (IWORID04)**

Synchrotron Applications

Kelvin Building, University of Glasgow

Monday 26 July

15:30

Synchrotron Applications

Session | Location: Room 257

15:30-16:00

Invited talk - 4th generation light sources and demands on detectors

Speaker

Prof. Edwin Westbrook

16:00-16:15

GaN UV detectors for synchrotron-based protein structure studies

Speaker

A. Blue

16:15-16:30

Looking into dynamical diffraction: Using the sensor crystal of the Medipix2 for both diffraction and observation of X-rays

Speaker

M. Mitschke

16:45-17:00

State of the art on epitaxial GaAs detectors

Speaker

G.C. Sun

17:00
