

**Session Program**

**25-29 Jul 2004**

**International Workshop on Radiation Imaging  
Detectors (IWORID04)**

***Gaseous Detectors***

Kelvin Building, University of Glasgow

## Tuesday 27 July

15:30

### Gaseous Detectors

**Session** | **Location:** Room 257

15:30-16:00

#### **Invited talk - Fast read-out pixel front-ends for adaptive optics in very large telescopes**

**Speaker**

Dr. John Vallerga

16:00-16:15

#### **The readout of gaseous detectors by means of a Micromegas-covered pixel-segmented CMOS anode**

**Speaker**

A. Fornaini

16:15-16:30

#### **HPD set-up tests of backside illuminated monolithic CMOS pixel sensor**

**Speaker**

W. Dulinski

16:30-17:00

#### **Invited talk - Readout of the LHCb pixel hybrid photon detector**

**Speaker**

Dr. Ken Wyllie

17:00
