

Session Program

25-29 Jul 2004

**International Workshop on Radiation Imaging
Detectors (IWORID04)**

Novel Applications II

Kelvin Building, University of Glasgow

Wednesday 28 July

11:00

Novel Applications II

Session | Location: Room 257

11:00-11:15

CMOS Monolithic Active Pixel Sensors for Ionising Radiation

Speaker

A. Evans

11:15-11:30

Design and test of a data acquisition system based on USB interface for the Medipix 2 chip.

Speaker

P. Randaccio

11:30-11:45

Development of Flexible Arrays for in-vivo neuronal Recording and Stimulation

Speaker

C. Adams

11:45
