

Session Program

30 August 2004 to 4 September 2004

QCD at Cosmic Energies

***Discussion: Forward physics at colliders:
experimental tasks and tools***

Ettore Majorana Cente, Erice, Italy

Tuesday 31 August

16:00

Discussion: Forward physics at colliders: experimental tasks and tools

Session | Location: Ettore Majorana Centre, Erice, Italy

16:00–16:30 Introduction

Speaker

Strikman, M.

16:30–17:00 Acceptance of CMS/TOTEM and trigger possibilities

Speaker

Eggert, K.

17:00–17:30 Exotics in cosmic rays and LHC possibilities

Speaker

Sarycheva, L.

17:30–18:00 Forward physics at CMS with CASTOR

Speaker

Panagiotou, A.

18:00–18:30

Radiation hard avalanche photodiodes for very forward physics detectors

Speaker

Swain, J.

18:30–19:00 Cosmic-ray interaction model predictions for LHC

Speaker

Engel, R.

19:00
