BaltGrid, 2004, Vilnius, Lithuania

Bruno Martuzāns
LATNET department of
IMCS of LU

Support for research infrastructure

Support scheme: Communication network
development

Instrument: Integrated infrastructure initiative

Area of work: deployment of Advanced Grid-
empowered infrastructures

Objectives of Grid

Support the creation of a network of (e.g. National Grid support centre in Europe)

Integration of access facilities into core Grid infrastructure environment (e.g. wireless devices...)

Support the further integration of Grid and Semantic/Web technologies and business concepts

Activities

Network activities

Specific service activities

(provision is key to CND scheme)

Joint research activities

GEANT

GEANT – GN2-Multi-Gigabit European Academic Network

Thank You
