16:30-16:50 **"Naked" Cronin effect at 62 GeV in absence of QGP**

Speaker
Alberto Accardi

16:50-17:10 **D meson production in dense nuclear matter**

Speaker
Laura Tolos

17:10-17:30 **Open charm tomography of the sQGP**

Speaker
Magdalena Djordjevic

17:30-17:50 **Open and hidden charm production in d-A and A-A collisions**

Speaker
Tuchin, K

17:50-18:10 **Quarkonium production and attenuation in high energy p-A collisions**

Speaker
Hirotugu Fujii

18:10-18:30 **Quarkonia production in p-A collisions**

Speaker
Mike Leitch

18:30-18:50 **The normal nuclear absorption of J/ψ production**

Speaker
Goncalo Borges
