Monday 8 November

09:00

Jets and High-pT Physics

Session | Location: Hotel Vila Gale, Ericeira, Portugal

09:00–09:30 **Medium effects on jets and their energy dependence**

Speaker

Henner Buesching

09:30–10:00 **Learning about jet physics from high-p_T correlations**

Speaker

Dan Magestro

10:00–10:30 **High-p_T in the forward region with BRAHMS**

Speaker

Jens-Jorgen Gaardhoje

10:30–11:00 **Coffee Break**

11:00–11:40 **Hard scattering, small x gluons and p_T behavior**

Speaker

Al Mueller

11:40–12:20 **Parton energy loss**

Speaker

Urs Wiedemann

12:20–13:00 **Jet suppression in a percolation model**

Speaker

Jorge Dias de Deus

13:00–14:00 **Lunch Break**

14:15–15:00 **Quenching of hadronic spectra**

Speaker

Xin-Nian Wang

15:00–15:30 **Parton recombination at all p_T**

Speaker

Rudy Hwa

15:30–16:00 **Jet fragmentation and baryon production**

Speaker

Barbara Jacak

16:00–16:30 **Coffee Break**

16:30
