

UK Issues for GDB

John Gordon

GDB Febriary 2005

John Gordon
j.c.gordon@rl.ac.uk

- The experiments have not used our resources.
 - Thus hard to persuade funders to provide more equipment.
 - Serious risk that UK saves it money for 2008
- Also require experiments to have a combined schedule to avoid interference between Challenges
- Scientific Linux
 - No LHC work appearing at sites who have moved to SL.
