

Closing Remarks

David Plane

How are we doing ?

- ◆ Papers – slowly, but surely, apart from :
WW cross-section paper.

Please encourage Graham if you see him
(and discourage him from giving another invitation for a linear
collider talk).

- 30 analyses ongoing.

- ◆ Monte Carlo Production :
Many thanks to Csaba Hajdu for taking responsibility for
running the system, and to Akos for keeping it going over the
last year.

How are we doing (2)

◆ Conferences :

Please let us know if you want to give a talk somewhere. There are still opportunities - keep speaker list up to date.

◆ OPAL "Week" in 2005 ???

- Personally I am strongly in favour of having OPAL "Week(s)" next year. Provides opportunity to present physics analyses, and serves as an incentive to make progress.
Date(s) ? - after Moriond, coupled to ATLAS and CMS Weeks.

News

◆ Physics Coordination in 2005.

Still a lot of work to do.

Gabi's doing a great job, so OSC proposed to Collaboration Board that she continue (with her agreement !!!!). OCB very enthusiastic about proposal,

so

Gabi is appointed for another year !!!!

The last slide !!!

- ◆ Thanks to you all for coming.
- ◆ Thanks to Physics Coordinators for organizing the week.

HAPPY NEW YEAR and ALL THAT!
