

Enabling Grids for  
E-science in Europe

[www.eu-egee.org](http://www.eu-egee.org)

*Cork meeting, 19-22 April 2004*

# Network Resources Provision

**Jean-Paul Gautier**  
SA2 manager

EGEE is a project funded by the European Union under contract IST-2003-508833

# Contents

- Objectives and approach
- Organisation
- Milestones/Delivrables

# EGEE Activities

## 24% Joint Research

**JRA1:** Middleware Engineering and Integration

**JRA2:** Quality Assurance

**JRA3:** Security

**JRA4:** Network Services Development

## 48% Services

**SA1:** Grid Operations, Support and Management

**SA2:** Network Resource Provision (1%)

## 28% Networking

**NA1:** Management

**NA2:** Dissemination and Outreach

**NA3:** User Training and Education

**NA4:** Application Identification and Support

**NA5:** Policy and International Cooperation

Emphasis in EGEE is on operating a production grid and supporting the end-users

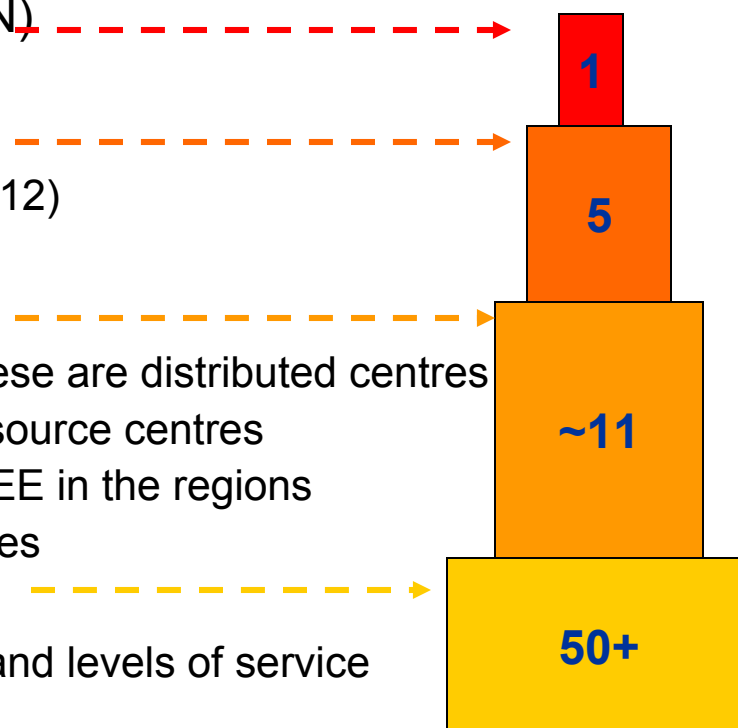

# Operations Structure (SA1)

- **Implement the objectives to provide**
  - Access to resources
  - Operation of EGEE as a reliable service
  - Deploy new middleware and resources
  - Support resource providers and users

- **With a clear layered structure**

- **Operations Management Centre (CERN)**
  - Overall grid operations coordination
- **Core Infrastructure Centres**
  - CERN, France, Italy, UK, Russia (from M12)
  - Operate core grid services
- **Regional Operations Centres**
  - One in each federation, in some cases these are distributed centres
  - Provide front-line support to users and resource centres
  - Support new resource centres joining EGEE in the regions
  - Support deployment to the resource centres
- **Resource Centres**
  - Many in each federation of varying sizes and levels of service
  - Not funded by EGEE directly

instances

# SA2: Network Resource Provision Goals, Objectives and Approach

- Ensures EGEE access to network services provided by GEANT and the NRENs to link users, resources and operational management

Do this by managing the relationship between EGEE and GEANT

- Tasks

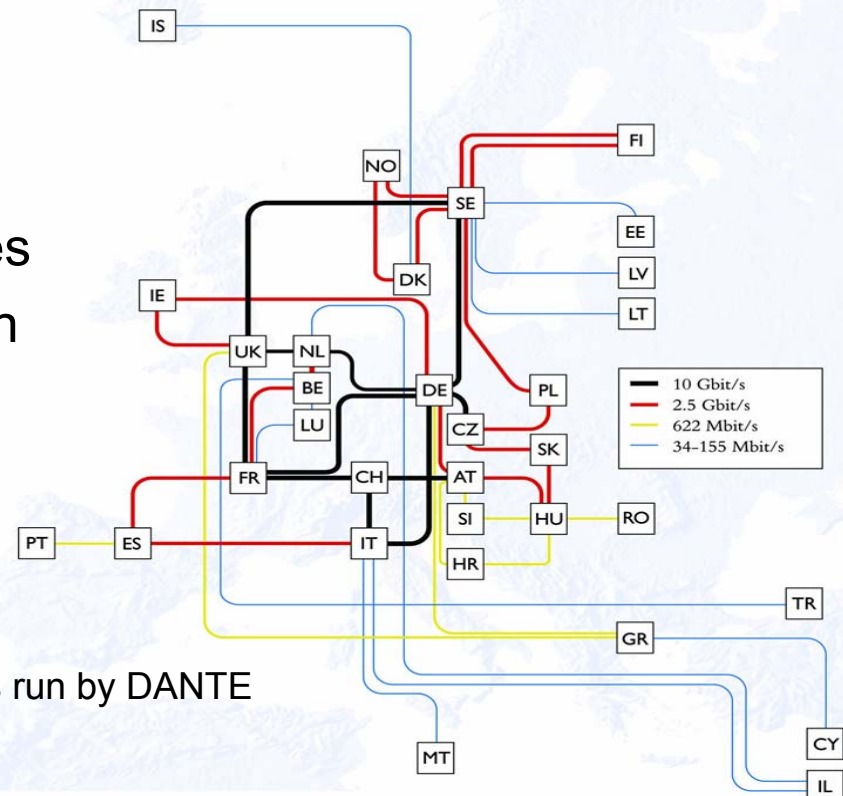

- Definition of requirements
- Specification of services
- Definition of network access policies
- Monitoring of service level provision

**GEANT** High-speed pan-European backbone linking NRENs run by DANTE

**NRENs** National Research and Educational Networks

**DANTE** Not-for-profit company that manages GEANT

# SA2 Approach : Network services

- Definition through standard modelling process :
  - Filling of SLRs (Service Level Request) by end users and applications
    - Ex : Bandwith allocation
      - Flow classification, MPLS VPN (L2, L3), GMPLS, Lightpath.
  - Definition of SLSs (Service Level Specification) by SA2, to be implemented by GEANT and the NRENs, in conjunction with JRA4 activity
  - Signature of SLAs (Service Level Agreement)
    - Client : Operations, Applications, Virtual Organizations ?
    - GEANT/NRENs

# SA2 Approach : Operational Interface

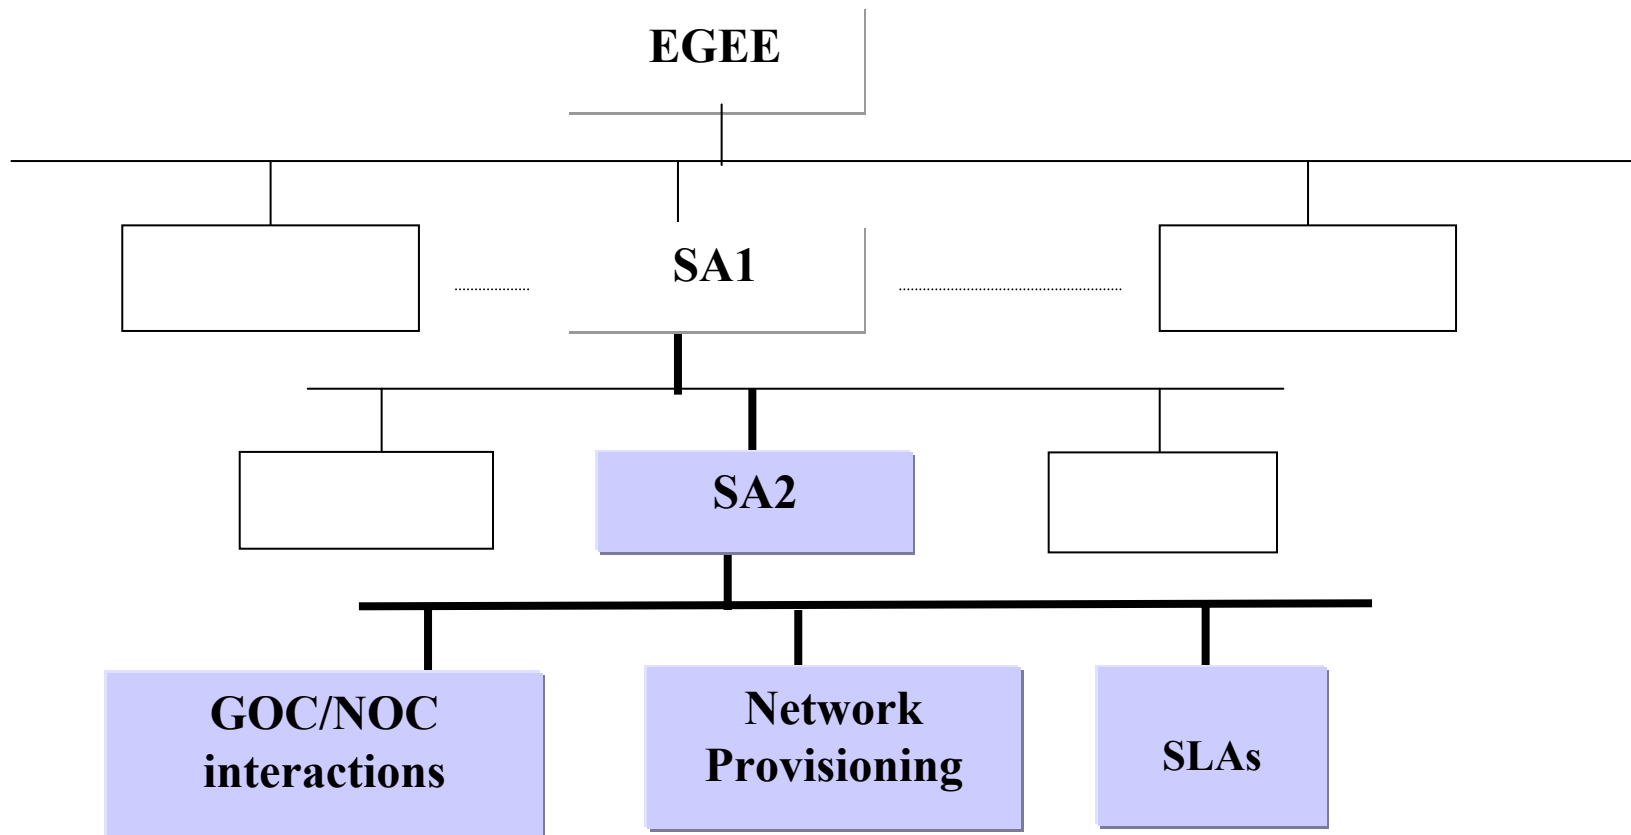

- Network Operation Centre (NOC) operational procedure study on GEANT and NRENS
  - To select NRENS
    - In EGEE : GARR, DFN, GRNET, CESNET,
    - Outside EGEE : SURFNET, RENATER, UKERNA ...
- Incremental integration with EGEE GOCs
  - Trouble Ticket systems study.
  - Define interfaces.
    - Homogenous system at the EGEE level.

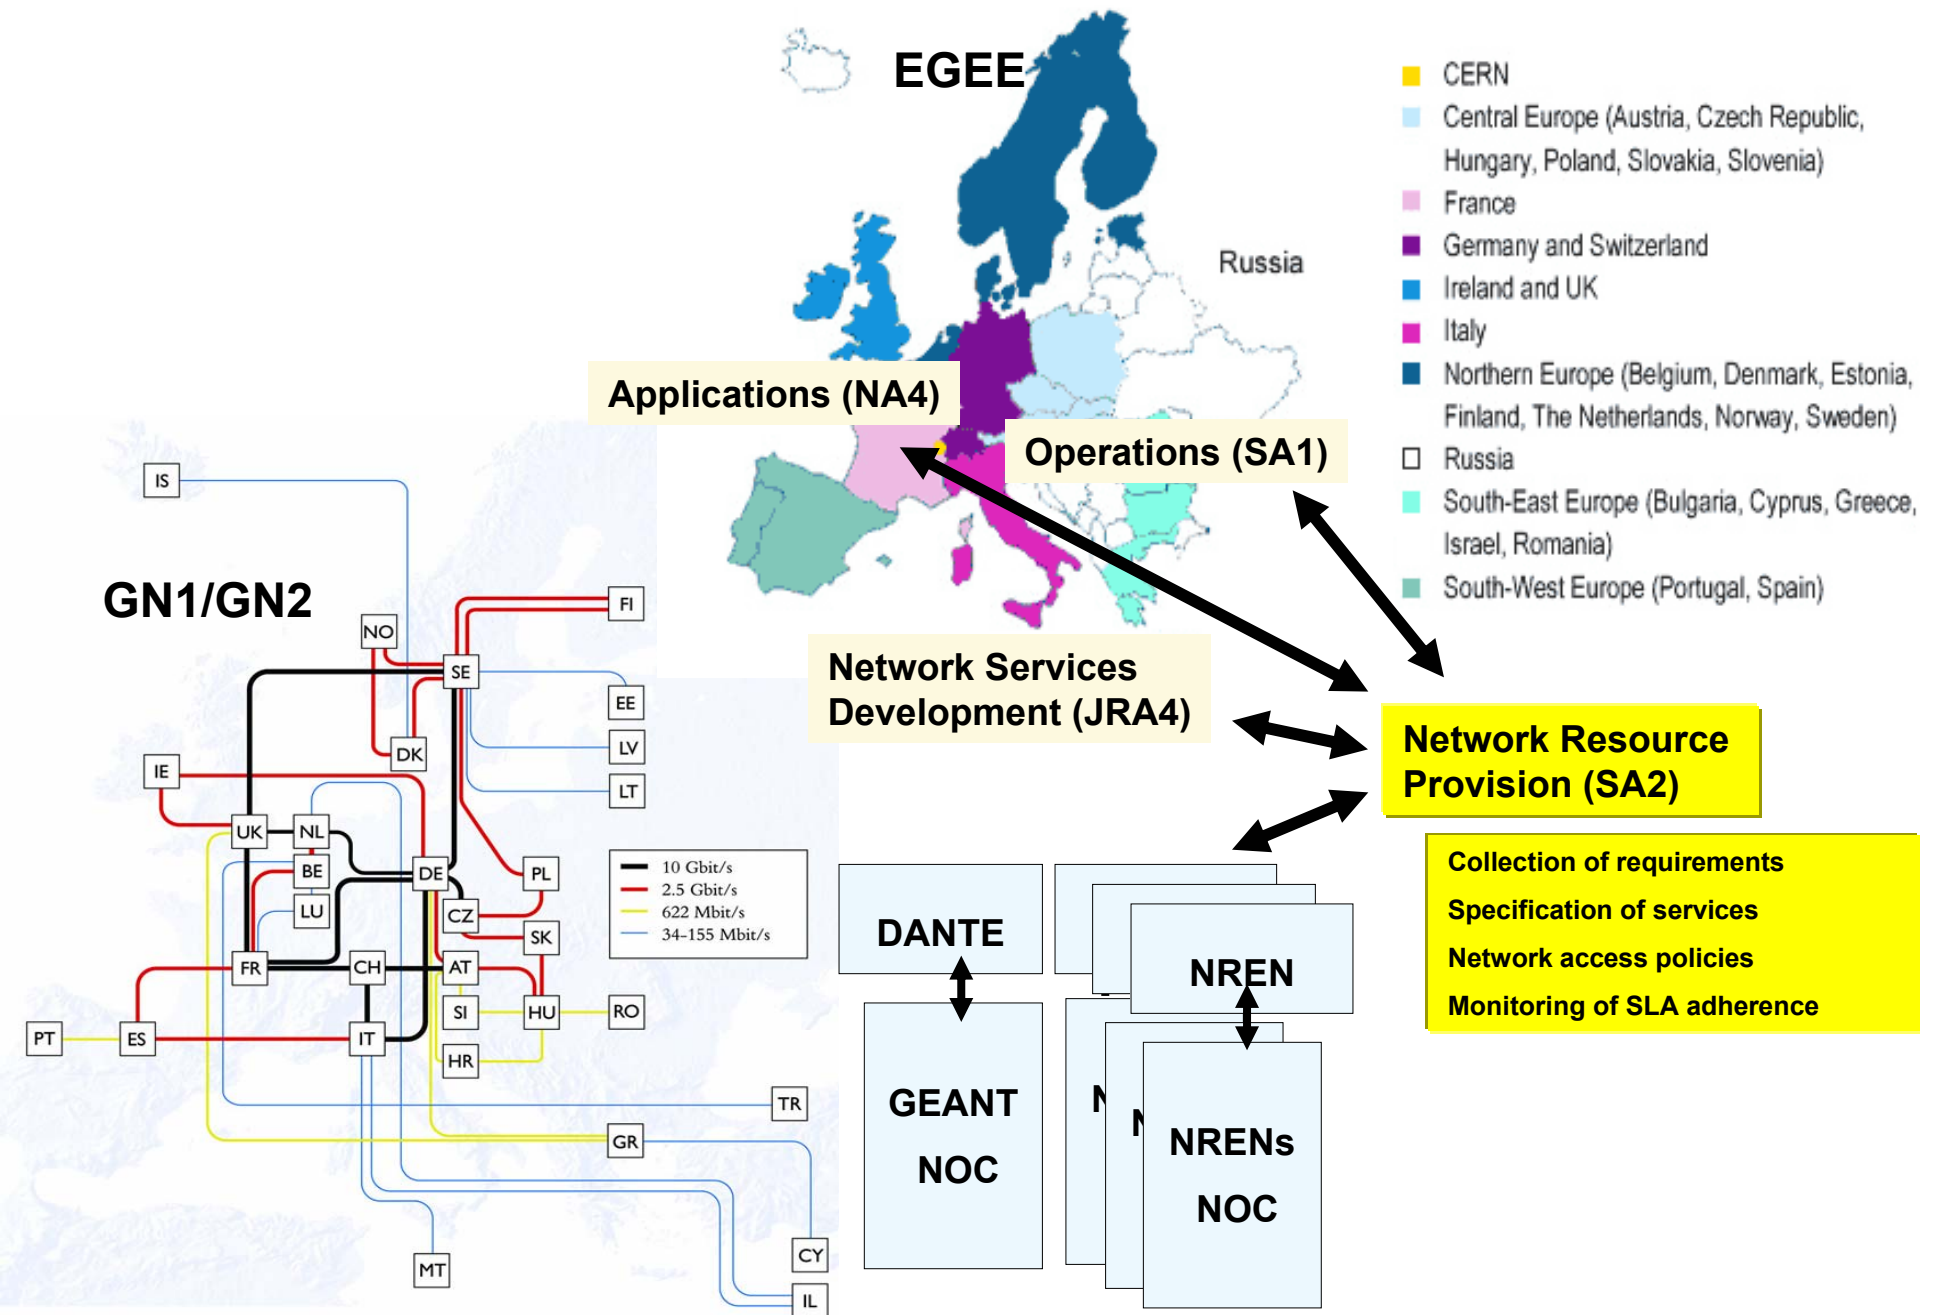

# SA2 Approach

- Outside the scope of EGEE to provide connections for any user or resource site
  - Sites must have adequate bandwidth & performance to join the production grid facility.
  - EGEE can help a particular site to improve its connectivity.
- Go beyond existing best effort IP service to meet the needs of a production level grid network.
- Network provision can itself be view as a class of Grid resource.

# Product breakdown structure

# SA2 Team

UREC will manage SA2 and oversee both SA2 and JRA4 activities, and will be responsible for DANTE and the NRENs liaison

Participant	Description of Role	FTE (EU funded + unfunded)
CNRS/UREC	Network Co-ordinator overseeing both service (SA2) and research activities (JRA4); responsible for DANTE and the NRENs liaison. Network resource provision requirements SLR/SLS/SLA definitions Operational model	Jean-Paul Gautier Mathieu Goutelle
RCC KI	Network resource provision requirements SLR/SLS/SLA definitions Operational interface between RDIG, Russian network providers and EGEE.	Sergei Teryaev X
GRNET	Network resource provision requirements SLR/SLS/SLA definitions	Afrodite Sevasti

# SA2 Milestones and deliverables

PM	Deliverable or Milestone	Item
M3	<b>Milestone</b> MSA2.1	First meeting of EGEE-GEANT/NRENS Liaison Board
M6	<b>Deliverable</b> DSA2.1	Survey of pilot application requirements on networks, initial SLRs and service classes.
M9	<b>Milestone</b> MSA2.2	Initial requirements aggregation model, specification of services as SLSs on the networks,
M12	<b>Milestone</b> MSA2.3	Operational interface between EGEE and GEANT/NRENS.
M12	<b>Deliverable</b> DSA2.2	Institution of SLAs and appropriate policies.
M24	<b>Deliverable</b> DSA2.3	Revised SLAs and policies.
