

Session Program

5-7 Apr 2004

UK Institute of Physics: Particle Physics 2004

Parallel II: QCD

Birmingham, UK

Tuesday 6 April

11:00

Parallel II: QCD

Session | **Location:** West Seminar Room

11:00–11:15

High $|t|$ diffractive photoproduction of rho mesons

Speaker

Carl Gwilliam

11:15–11:30

Heavy Ion Physics at the NA57 CERN Experiment

Speaker

Stephen Bull

11:30–11:45

Lambda-based Perturbation Theory for Event Shapes in e^+e^- Annihilation

Speaker

Michael Dinsdale

11:45–12:00

Infrared Finite Scattering Amplitudes

Speaker

Darren Forde

12:00–12:15

Infrared freezing of QCD observables

Speaker

Paul Brooks

12:15–12:30

Multi-Jets at HERA

Speaker

Tim Namsso

12:30
