

Session Program

5-7 Apr 2004

UK Institute of Physics: Particle Physics 2004

Parallel IX: Standard Model and Beyond

Birmingham, UK

Wednesday 7 April

11:00

Parallel IX: Standard Model and Beyond

Session | Location: Large Lecture Theatre

11:00–11:15

Results from investigations into the CMS physics channels $PP \rightarrow bbH(H \rightarrow \gamma\gamma)$

Speaker

Daniel Holmes

11:15–11:30

WW production at CDF

Speaker

Dustin McGivern

11:30–11:45

WW scattering studies at a Future Linear Collider

Speaker

Andres Osorio

11:45–12:00

CKM physics from $B \rightarrow K\pi$ decays at LHCb

Speaker

Andy Buckley

12:00–12:15

Resonant Leptogenesis

Speaker

Tom Underwood

12:15–12:30

Search for events with tau-leptons at H1

Speaker

Christian Veelken

12:30
