

Session Program

5-7 Apr 2004

UK Institute of Physics: Particle Physics 2004

Parallel IV: Neutrinos and Dark Matter

Birmingham, UK

Tuesday 6 April

16:00

Parallel IV: Neutrinos and Dark Matter

Session | Location: Large Lecture Theatre

16:00-16:15 **The Nemo-3 experiment and neutrinoless double beta decay**

Speaker
Leo Jenner

16:15-16:30 **Searching for atmospheric neutrino oscillations at MINOS**

Speaker
Andy Blake

16:30-16:45 **Acoustic Detection of Ultra-High Energy Neutrinos**

Speaker
David Waters

16:45-17:00 **Calibration of the MINOS Detectors using Stopping Muons**

Speaker
Jeff Hartnell

17:00-17:15

Development of Micromegas Charge Read-Out for a Two Phase Xenon Dark Matter Detector

Speaker
Robert Hollingworth

17:15-17:30

Near & Far detector response comparison with the MINOS calibration detector

Speaker
Anatael Cabrera

17:30
