

7th International Conference on Position Sensitive Detectors

Monday, September 12, 2005 - Friday, September 16, 2005

University of Liverpool

Scientific Program

Pixel Detectors for Charged Particles

Applications in Nuclear Medicine And Radiology

X-ray and Gamma-ray Detectors

New Techniques for Positron Emission Tomography

Applications in Astronomy and Astrophysics

Applications in Life Sciences

Applications in Nuclear Physics

Applications in Condensed Matter

Detectors for Astro-Particle Physics

New Gas-based Detectors

Applications in Space Science

New Solid-State Detector Technology

Applications in Particle Physics

Detectors for Synchrotron Radiation and Spallation Neutron Sources

Novel Photon Detection Systems

New Gas-based Tracking Detectors

Novel Gas-based Detection Techniques
