

# 7th International Conference on Position Sensitive Detectors

## Tuesday, 13 September 2005

### S5 : Applications in Astronomy and Astrophysics (13:30 - 15:00)

time	[id] title	presenter
13:30	[125] Technology Roadmap for Detectors for Astronomy	Prof. CUNNINGHAM, Colin
14:00	[66] DEPFET Active Pixel Sensors and pnCCDs for room temperature imaging (Xray) Spectroscopy in space missions and terrestrial astronomy	Dr TREIS, Johannes
14:15	[78] Large Area Near Infrared Detectors for Astronomy	Mr IVES, Derek
14:30	[47] Development of Large area Gamma-ray Camera with GSO(Ce) Scintillator Arrays and PSPMTs	Mr NISHIMURA, Hironobu
