

7th International Conference on Position Sensitive Detectors

Wednesday 14 September 2005

S7 : Novel Photon Detection Systems (09:00 - 10:30)

time	[id] title	presenter
09:00	[127] Novel Pixel Detectors for Structural Biology	Dr FARUQI, Wasi
09:30	[82] An active pixel sensor and microelectrode array for retinal stimulation	Dr MATHIESON, Keith
09:45	[95] Characterising a planar germanium strip detector for imaging applications	Mr TURK, Gerard
10:00	[56] Hybrid Photon Detectors for the LHCb Ring Imaging Cherenkov Detectors	Dr SOLER, Paul
10:15	[21] Micro Pixel Chamber Operation with Gas Electron Multiplier	Mr HATTORI, Kaori
