

Session Program

10-12 Oct 2005

Nuclear Physics & Astrophysics at CERN - NuPAC

Facilities at CERN: injectors, short and mid-term plans for n_TOF and ISOLDE

CERN, 503-1-001: SALLE DU CONSEIL
CH-1211 Geneva 23 SWITZERLAND

Wednesday 12 October

13:30

Facilities at CERN: injectors, short and mid-term plans for n_TOF and ISOLDE

Session | **Location:** CERN, 503-1-001: SALLE DU CONSEIL, CH-1211 Geneva 23 SWITZERLAND

13:30-14:05

Potential future proton beam performance for HIE-ISOLDE, n_TOF phase 2 and EURISOL at CERN

Speaker

Dr Michael Benedikt

14:05-14:40

The future of ISOLDE

Speaker

Prof. Peter Butler

14:40-15:15

The future of n_TOF

15:15-15:40

break

15:40-16:05

The necessary safety requirements for the next generation n_TOF and ISOL facilities at CERN

Speaker

Dr Thomas Otto

16:05-16:30

Protons at CERN: synergy with neutrino physics requirements

Speaker

Dr Jacques Bouchez

16:30
