

Session Program

7-10 Nov 2005

Flavour in the era of the LHC

WG1, session 2

CERN

Wednesday 9 November

09:00

WG1, session 2

Session | Location: CERN, 40-SS-D01

09:00-09:20 Search for isosinglet quarks with the ATLAS detector

Speaker
Unel, G.

09:30-09:50 Extra dimensions flavour physics

Speaker
Burdman, G.

10:00-10:20
Search for Supersymmetric electroweak effects in top production at the LHC

Speaker
Verzegnassi, C.

10:30-10:50 Study of top anomalous couplings and FCNC with the ATLAS detector

Speaker
Castro, N.

11:00-11:20 coffee break

11:30-11:50 Preliminary studies of top FCNC in CMS

Speaker
Benucci, L.

12:00-12:15 Bs->mumu and various SUSY scenarios

Speaker
Ko, P.

12:25-12:55 Discussion

12:55
