Interpretation of Experiments' Goals

At high-level, strong commonality across experiments:

- First try, then test, then stress-test core data management services

- 'Trying' can be done in parallel to SC3 production activities (pre-production, pilot, …)

- 'Testing' requires coordination of resources and clear goals / metrics agreed up-front

- 'Stress-testing' (simulating / exercising primary offline use cases except EU analysis) requires further coordination of resources + clear goals / metrics agreed up-front

- We have to be clear that these are the goals and work together to achieve them

- We also have to be realistic and explicit about the level of functionality and service that can be provided

- (The summer will be long and hot)

Overall Schedule (Raw-ish)

Sep	Sep	Oct	Oct	Nov	Nov	Dec	Dec
ALICE	ALICE						
			ATLAS	ATLAS			
CMS	CMS			CMS	CMS		
LHCb		LHCb					

Sep	Sep	Oct	Oct	Nov	Nov	Dec	Dec
ALICE	ALICE						
			ATLAS	ATLAS			
	CMS	CMS		CMS	CMS		
		LHCb			LHCb		

Sample "Use Case" Jobs

Action on the experiments:

- Provide example jobs that demonstrate sample Use Cases.

- To be useful this has to be done (including the delivery of the jobs) by the middle of July if we are to be able to conclude on the setup phase of SC 3
