

# **GRNET/UoA Progress Prague AHM**

Ioannis Liabotis
Prague, 05/11/2008

www.eu-egee.org

## GRNET in SA3 - (1)

**Enabling Grids for E-sciencE** 

## TSA3.2 - Testing and certification

- Patch certification
- Maintenance of a testing infrastructure suitable for patch certification.
- Installation and certification of patches in accordance with guides and criteria produced by the activity coordination.
- Publication and archiving of test results
- Test writing, inc regression tests
- Interaction with developers for debugging complex issues OK
- Specialisation;
  - Torque/Maui
  - Yaim

### Further Specialization

- SLCS
- Further specialisation CREAM

## **GRNET** in **SA3** - (2)

#### TSA3.4 - Debugging, analysis, support

- Work in association with FOM to write tests for torque
- Maintain the guidance for testing batch systems in general.
- Participate in batch system integration activities. Participate in testing and debugging the implementation of forthcoming changes related to the work of the Worker Noder Resources Working Group (<a href="http://egee-intranet.web.cern.ch/egee-intranet.web.cern.ch/egee-intranet/NA1/TCG/wgs/wn.htm">http://egee-intranet.web.cern.ch/egee-intranet/NA1/TCG/wgs/wn.htm</a>).

# **GRNET** is **SA3** – (3)

- TSA 3.5 management of the Activity
  - Substantial participation in the Deployment Guide MSA3.5.1.

## **Tasks and Patches Overview**

**Enabling Grids for E-sciencE** 

- task #6979, Patch 1693
  - SLCS client installation/configuration DONE ACCEPTED
- task #7539, Patch 2055 DONE ACCEPTED BUGS REPORTED (5 – bugs)
  - Test new yaim core as patch 2055 on CE and WN
  - Tested also in DPM with separate head node from pool nodes + remote MySQL – bugs reported
    - http://savannah.cern.ch/bugs/?39311
    - http://savannah.cern.ch/bugs/?40654
    - http://savannah.cern.ch/bugs/?40652
    - http://savannah.cern.ch/bugs/?33928

## **Tasks and Patches Overview**

**Enabling Grids for E-sciencE** 

- task #7666, Patch 2186
  - SLCS client update (DONE REJECTED) Server side modifications needed to recertify this patch.
- Shot Deadline Jobs OK DONE
- task #7853, patch 2001,
  - First update of CREAM CE for slc4/i386 platform –
     CANCELED DUE TO PROBLEMS FOUND BY DEVELOPERS
- task #7859, Test new yaim cluster configuration To be done after CREAM CE Related tasks
- task #7860, Testing guide and scripts for SLCS
  - IN PROGRESS, see next presentation

## **Tasks and Patches Overview**

**Enabling Grids for E-sciencE** 

- task #8203, Patch 2415 + PATCH 2417, 1830 in PPS
  - first update of CREAM CE for slc4/i386 platform.
  - IN PROGRESS Installation and configuration OK.
     Regression and brief scalability tests assigned as different tasks (8301, 8302?).
  - Bugs Opened: <a href="http://savannah.cern.ch/bugs/?40669">http://savannah.cern.ch/bugs/?40669</a>
- task #8300, writing of MSA3.5.1
  - IN PROGRESS see report in next slides
- task #8301, regression tests for the CREAM
  - IN PROGRESS SEE REPORT ON NEXT PRESENTATION

- 1, 2: INTRODUCTION AND STANDARD EGEE-III MILESTONE FORMAT SECTIONS
- 3 INTRODUCTION TO THE EGEE INRASTRUCTURE
- 4 SITE ARCHITECTURE
  - 4.1 MINIMAL SITE SERVICES
  - 4.2 CORE SERVICES
- 5 THE GLITE MIDDLEWARE
- 6 MININAL SITE SETUP
  - 6.1 HARDWARE
  - 6.2 PLATFORMS
  - 6.3 NETWORKING AND FIREWALL
  - 6.4 SECURITY

- 7 ADMINISTRATORS REQUEST TO BECOME A USER
- 8 GLITE INSTALLATION
- 9 SITE REGISTRATION TO EGEE
- 10 SITE TESTING
  - 10.1 TESTING THE INFORMATION SYSTEM
  - 10.2 TESTING JOB SUBMISSION
  - 10.3 TESTING DATA MANAGEMENT
- 11 EXPANDING A SITE
- 12 CONCLUSIONS
