

**Session Program**

**12-16 Sept 2005**

**Frontier Science 2005**

***Flavour Physics and CP violation***

Dep. of Physics - University of Milano Bicocca, U2--07

## Tuesday 13 September

14:30

### Flavour Physics and CP violation

**Session** | **Location:** Physics Dep. - University of Milano-Bicocca, U2--07

14:30-15:10

#### CKM Physics

**Speaker**

Stocchi, A.

15:10-15:50

#### Results from Babar and Belle

**Speaker**

Ferroni, F.

15:50-16:15

#### New Physics in the Heavy Flavour Sector

**Speaker**

Isidori, G.

16:15-16:30

#### Coffee Break

16:45-17:15

#### The present and future of K Physics

**Speaker**

Mikulec, I.

17:15-17:30

#### New hadron spectroscopy with Babar

**Speaker**

Mohanty, G.

17:30-17:45

#### Rare decays and search for new physics with Babar

**Speaker**

Bauer, J.

17:45-18:15

#### Vus determination from K decays at KLOE

**Speaker**

Bloise, C.

18:15-18:30

#### End of Session

18:30
