

Session Program

29 November 2005 to 1 December 2005

**Grid Computing for Complex Problems,
Slovakia**

session 3

Institute of Informatics, Bratislava, Slovakia

Wednesday 30 November

09:00

session 3 Session Location: IISAS	
09:15-09:45	Mediterranean Grid of Multi-Risk Data and Models Speaker Miroslav Dobrucky
09:45-10:20	Grids and User Applications Speaker Viera Sipkova
10:20-10:50	Job management in the LCG-type Grid Speaker Miroslav Dobrucky
10:50-11:15	IEPSAS-Kosice: experiences in running LCG site Speaker Marian Babik
11:15-11:35	coffee break
11:35-12:05	Latest advances in fully coupled thermal structural calculations using finite element method (FEM) with new energy conservation equation Speaker Ladislav Ecsi
12:05-12:30	Simulation of Data Flow Architecture in Parallel environment Speaker Marek Straka
12:30-13:25	--lunch--

13:25
