

7th International Conference on Large Scale Applications and Radiation Hardness of Semiconductor Detectors

Wednesday 5 October 2005

Day 1 (09:00 - 19:00)

time	[id] title	presenter
09:00	Registration	
10:00	[6] From the Endcap ATLAS SCT Module production to commissioning	FERRERE, Didier
10:25	[7] Functional Testing of the ATLAS SCT Barrels	PHILLIPS, Peter
10:50	[8] The ALICE Silicon Drift Detector: construction and assembly of the system	, S. Beole'
11:10	Coffee Break	
11:50	[9] Assembly, construction and testing of the ALICE Silicon Pixel Detector	, V. Manzari
12:15	[10] The CMS inner barrel silicon microstrip module production and test	, A. Tricomi
12:40	[11] Status of integration of the CMS Tracker Inner Barrel	, L. Borrello
13:00	Lunch	
15:00	[1] The ILC Silicon tracker	, E. Spiriti
15:25	[2] Finnish CMS-TOB Cosmic Rack	, T. Maenpaa
15:50	[3] The CMS Silicon Strip End Cap Tracker - Overview and Status	, M. Vander Donckt
16:15	[4] First Level Trigger using a pixel detector for the CMS experiment	, M. D'Alfonso
16:40	[5] First performance studies of jet rejection using a pixel based trigger	PIOPPI, Michele
18:00	Welcome Cocktail
