

CONCLUSIONS and QUESTIONS

- ◆ Hard Work but Good Progress
- ◆ Improvements to be achieved:
 - Better Knowledge of the TCC2 Radiation Environment
 - Safer Access to Test Zone (Via Gallery 802)
 - Material Traceability (Logbook + Data Base)
- ◆ What Future for TCC2?
 - For how many Years Need TCC2 to Operate?
 - How much Space/Volume will be Required?
 - Will we need Another Test Area?

Many Thanks

- ◆ To All Speakers for their Excellent Presentation

- ◆ To the Radiation Protection Group:
 - Gilbert Bertuol for his Presence and Help
 - Daniel Perrin for the PMI Operation
 - Marc Tavlet for TCC2 Dosimetry

- ◆ To the SPS Operation Group for the Supervision of the Access to TCC2
