Session 4: K-Physics-2

Session | Location: Lecture Theatre Faraday Complex

14:00–14:30 Semileptonic K decays: recent measurements on Vus

Speaker
Dr Antonella Antonelli

14:30–14:55 Review on Chiral Perturbation: theory

Speaker
Dr Giancarlo D'Ambrosio

14:55–15:20 Review on Chiral Perturbation: experimental measurements

Speaker
Dr Riccardo Fantechi

15:20–15:45 Highlights on rare charged K decays - I

Speaker
Dr Viacheslav DUK

15:45–16:15 Coffee break

16:15–16:40 Highlights on rare charged K decays - I I

Speaker
Dr Mauro Raggi

16:40–17:05 CPT and Quantum Mechanics tests with Kaons: theory

Speaker
Prof. Nikolaos Mavromatos

17:05–17:30 Tests of CPT and Quantum Mechanics: experiment

Speaker
Dr Marianna Testa
