FTS workshop for experiment integrators

Report of Contributions

Contribution ID: **1**
Type: **not specified**

Introduction and goals

Wednesday 16 November 2005 09:30 (10 minutes)

Author: GAVIN MCCANCE

Presenter: GAVIN MCCANCE

Session Classification: Current status and plans

Contribution ID: **2**
Type: **not specified**

Current status of transfer service

Wednesday 16 November 2005 09:40 (30 minutes)

Author: GAVIN MCCANCE

Presenter: GAVIN MCCANCE

Session Classification: Current status and plans

Contribution ID: **3**   Type: **not specified**

Status of integration with FTS: CMS

Wednesday 16 November 2005 10:10 (30 minutes)

Current status of integration / use of FTS.
* How is it being used?
* What limitations do you see?
* Features you would like to add next?

Author: STEFANO BELFORTE

Presenter: STEFANO BELFORTE

Session Classification: Current status and plans

Contribution ID: **4**   Type: **not specified**

Status of integration with FTS: Alice

Wednesday 16 November 2005 10:40 (30 minutes)

Author: PATRICIA MENDEZ LORENZO

Presenter: PATRICIA MENDEZ LORENZO

Session Classification: Current status and plans

Contribution ID: **5**
Type: **not specified**

Status of integration with FTS: LHCb

Wednesday 16 November 2005 11:30 (30 minutes)

Author: ANDREW CAMERON SMITH

Presenter: ANDREW CAMERON SMITH

Session Classification: Current status and plans

Contribution ID: **6**
Type: **not specified**

Status of integration with FTS: Atlas

Wednesday 16 November 2005 12:00 (30 minutes)

Author: DAVID CAMERON

Presenter: DAVID CAMERON

Session Classification: Current status and plans

Contribution ID: **7** Type: **not specified**

VO agent plugin mechanism

Wednesday 16 November 2005 14:00 (30 minutes)

Will describe the overall VO agent mechanism. What can currently be overidden, what's planned. Will give a code example of how this works.

Author: PAOLO BADINO

Presenter: PAOLO BADINO

Session Classification: Practical demonstration and discussion

Contribution ID: **8**
Type: **not specified**

Questions and discussion

Wednesday 16 November 2005 14:45 (1h 30m)

Open issues to be discussed:

- FTS Channel Selection
- Pre-staging and MSS interaction
- Error recovery / Channel Halting

Session Classification: Practical demonstration and discussion

Contribution ID: **9**

Type: **not specified**

Plans and priorities

Wednesday 16 November 2005 16:15 (20 minutes)

To define the plan as a result of the workshop, and agree on the priorities.

Session Classification: Practical demonstration and discussion

Contribution ID: **10**   Type: **not specified**

Summary of Experiment Issues

Wednesday 16 November 2005 14:30 (15 minutes)

Gather and agree on issues for discussion coming from experiment presentation

Author: GAVIN MCCANCE

Presenter: GAVIN MCCANCE

Session Classification: Practical demonstration and discussion
