# LFC tutorial

*Thursday 15 June 2006 09:45 (30 minutes)*

The LCG File Catalog is required as a local catalog at all sites by ALICE.

It is provided at the T0 and all T1s - the latter serving also T2s - for ATLAS.

An LFC instance at CERN serves as a CMS global DLS(=DataLocationSystem) catalog.

It is provided as a central catalog at the T0 for LHCb.

**Presenters:**   BAUD, Jean-Philippe (CERN);  LEMAITRE, Sophie (CERN)

**Session Classification:**  Data Management Tutorials
