

Session Program

8 December 2008

**New Instruments for Neutrino Relics and
Mass**

Relic Detection

CERN, 6-2-024 AB Auditorium

Monday 8 December

15:45

Relic Detection

Session | Location: CERN, 6-2-024 AB Auditorium

15:45-16:15

Coherent target effects for atomic neutrino mass spectroscopy and detection of relic neutrino

Speaker

Motohiko Yoshimura

16:15-16:40

Emergent Electroweak Gravity

Speaker

Dr Bob McElrath

16:40-17:05

Relic neutrino detection using beta decaying nuclei

Speaker

Dr Alfredo Giuseppe Cocco

17:05-17:30

Experimental challenges towards the detection of relic neutrinos with unstable nuclei

Speaker

Dr Marcello Messina

17:30
