

WLCG-OSG-EGEE joint operations workshop

Report of Contributions

Contribution ID: 1

Type: **not specified**

Conclusions from VO Box Working Group

Monday, 19 June 2006 11:10 (20 minutes)

Primary author: TEMPLON, J. (NIKHEF)

Presenter: TEMPLON, J. (NIKHEF)

Session Classification: VOBoxes

Contribution ID: 2

Type: **not specified**

Non-LHC VOs using OSG resources

Monday, 19 June 2006 10:10 (15 minutes)

Primary author: CONRAD STEENBERG (Caltech)

Presenter: CONRAD STEENBERG (Caltech)

Session Classification: Data challenges for non-LHC VOs

Contribution ID: 3

Type: **not specified**

OSG Risk Assessment

Tuesday, 20 June 2006 15:00 (15 minutes)

The Open Science Grid is undertaking a risk assessment of its assets and responsibilities, guided by NIST processes leading to a better understanding of the needed security management, operational and technical controls.

Primary author: DON PETRAVICK (Fermilab, USA)

Presenter: DON PETRAVICK (Fermilab, USA)

Session Classification: OSG Risk Assessment

Contribution ID: 4

Type: **not specified**

Cross Grid Release Issues

Monday, 19 June 2006 14:00 (10 minutes)

Primary author: R. GARDNER

Presenter: R. GARDNER

Session Classification: Release and deployment process WG

Contribution ID: 5

Type: **not specified**

Release Processes in OSG

Monday, 19 June 2006 14:10 (10 minutes)

Primary author: R. GARDNER

Presenter: R. GARDNER

Session Classification: Release and deployment process WG

Contribution ID: 6

Type: **not specified**

Release process in EGEE

Monday, 19 June 2006 14:20 (10 minutes)

Primary author: LUKASZ SKITAL

Presenter: LUKASZ SKITAL

Session Classification: Release and deployment process WG

Contribution ID: 7

Type: **not specified**

A brief overview of the OSG model

Monday, 19 June 2006 14:00 (10 minutes)

OSG has a distributed support model that includes a central Operations Organization and VO, Facility and Service based Support Centers. The agreement between a Support Center and the OSG is in development.

Primary author: DOUG OLSON

Presenter: DOUG OLSON

Session Classification: User support WG

Contribution ID: 8

Type: **not specified**

A brief overview of the EGEE model

Monday, 19 June 2006 14:10 (10 minutes)

Primary author: TORSTEN ANTONI

Presenter: TORSTEN ANTONI

Session Classification: User support WG

Contribution ID: 9

Type: **not specified**

Interoperability of ticketing systems between peer grids (discussion)

Monday, 19 June 2006 14:20 (50 minutes)

- the life of an OSG ticket for an EGEE site
 - the life of an EGEE ticket for an OSG site
 - how we plan to integrate other peer grids: Nordugrid, Balticgrid...

Session Classification: User support WG

Contribution ID: **10**

Type: **not specified**

Feedback from the VOs users (discussion)

Monday, 19 June 2006 16:10 (50 minutes)

Session Classification: User support WG

Contribution ID: **11**

Type: **not specified**

Supporters responsiveness (discussion)

Monday, 19 June 2006 17:00 (1 hour)

- are people happy with the current response time?
- how can we improve it?

Session Classification: User support WG

Contribution ID: **12**

Type: **not specified**

User-friendliness (discussion)

Monday, 19 June 2006 15:10 (40 minutes)

- do users find the user support supportive?
- do supporters find the processes of user support supportive?

Session Classification: User support WG

Contribution ID: **13**

Type: **not specified**

Job Priorities

Monday, 19 June 2006 14:00 (15 minutes)

Primary author: DIETRICH LIKO (CERN)

Presenter: DIETRICH LIKO (CERN)

Session Classification: Operations process WG

Contribution ID: **14**

Type: **not specified**

glexec deployment models and pilot jobs

Monday, 19 June 2006 14:15 (15 minutes)

Primary author: DAVID GROEP (NIKHEF)

Presenter: DAVID GROEP (NIKHEF)

Session Classification: Operations process WG

Contribution ID: 15

Type: **not specified**

Fabric Monitoring with LEMON

Monday, 19 June 2006 16:00 (30 minutes)

A description of reusable components of the LEMON fabric monitoring framework

Primary author: TOMLIN, W (CERN)

Presenter: TOMLIN, W (CERN)

Session Classification: Operations process WG

Contribution ID: **16**

Type: **not specified**

top 5 issues (uk poll)

Monday, 19 June 2006 16:30 (15 minutes)

Primary author: VAN DER AA, O (Imperial College)

Presenter: VAN DER AA, O (Imperial College)

Session Classification: Operations process WG

Contribution ID: 17

Type: **not specified**

Current WLCG/EGEE site/service validation tools

Monday, 19 June 2006 14:00 (45 minutes)

- SAM introduction (Service Availability Monitoring, SFT successor) and first results (short live presentation)
- Top-level LCG/EGEE monitoring and validation tools (CIC-on-duty/SFT/SAM) in context of ROC/site monitoring tools:
 - site certification process in ROCs
 - which tools are there
 - feedback from ROCs/sites

Primary author: PIOTR NYCZYK, OTHERS

Presenter: PIOTR NYCZYK, OTHERS

Session Classification: Site/service validation WG

Contribution ID: **18**

Type: **not specified**

Current OSG site/service validation tools

Monday, 19 June 2006 14:45 (45 minutes)

- Overview of <http://vors.grid.iu.edu> discuss future plans
- Overview of the Grid Exersisor (GridEx) which is used as an application validator
- How OSG uses the gathered site validation information
- Deployment of a distributed site validation tool for use by VO's

Primary author: LEIGH GRUNDHOEFER

Presenter: LEIGH GRUNDHOEFER

Session Classification: Site/service validation WG

Contribution ID: **19**

Type: **not specified**

WLCG service validation on the OSG sites

Monday, 19 June 2006 15:30 (45 minutes)

- LCG client software installation and validation
- relation between EGEE/LCG PPS and OSG ITB
- discussion

Primary author: ALL

Presenter: ALL

Session Classification: Site/service validation WG

Contribution ID: 20

Type: **not specified**

WLCG/EGEE related discussion

Monday, 19 June 2006 16:45 (1h 15m)

- Feedback from ROCs/sites on sporadic test failures
- discussion on alarm masking/reduction (central services causing failures of sites)
- VO specific tests in SFT/SAM
- DB monitoring on Tier1 sites (presentation from Dirk Duellmann)
- Plans for future (long term strategy)

Primary author: ALL

Presenter: ALL

Session Classification: Site/service validation WG

Contribution ID: 21

Type: **not specified**

WorkGroup - Operations Process

Tuesday, 20 June 2006 11:10 (1 hour)

ppt for operations process

Primary author: ALESSANDRA FORTI AND ROB QUICK (UKI and IU)

Presenter: ALESSANDRA FORTI AND ROB QUICK (UKI and IU)

Session Classification: Report from Operations process WG
