

SM and BSM physics at the LHC

Friday 21 August 2009

4th generation - TH Theory Conference Room (10:00 - 13:00)

time	[id] title	presenter
10:00	Coffee break	
10:30	[90] 4th generation in models of dynamical electroweak symmetry breaking	BURDMAN, Gustavo
10:55	[91] Naturalness of the fourth generation	SULTANSOY, Saleh
11:15	[92] Predictions for EW production of single top and fourth generation quarks at NLO QCD	FREDERIX, Rikkert
11:35	[93] Fourth generation leptons at the LHC	OZCAN, Erkcan
11:55	[94] Single and anomalous productions of fourth family up type quarks at the LHC	CAKIR, Orhan
12:15	[95] Searching for 4th Generation Quarks at CMS	CHEN, Kai-Feng
