

LCG and Experiments Coordination Meeting (ECM)

Previously “Resource Scheduling Meeting (RSM)” but this title did not fully reflect the goals of the meeting

Weekly Meeting (Monday 3 PM)

Agendas: <http://indico.cern.ch/categoryDisplay.py?categId=654>

Mailing List: lcg-resource-scheduling-meeting@cern.ch

Participants

Service Coordination (SC) Team representatives, Experiment Integration Support (EIS) Team

Mandate

- Reviews the current and medium term resource requirements of the experiments
- The EIS team reports changes in the experiments requirements that need to be taken into account by the sites
- Follows the status of the major and critical service problems
- The SC team collects and take this information (in writing) to the Operations Meeting, in a summarized way and focusing on the outstanding issues to solve.
- The SC team informs the sites of the changes in requirements to the Operations Meeting
- Collects major issues and problems with the LCG Services in preparation to the SCM meeting.
- Escalates to the MB when appropriate (via the SC or the experiments representatives at the MB)

Operations Meeting (OPS)

Weekly Joint Operations meeting (chair: M.Barroso or N.Thackray)

Agendas: <http://agenda.cern.ch/displayLevel.php?fid=258>

Mailing List: grid-operations-meeting@cern.ch

Participants

WLCG Tier-1s sites representatives, other major sites that are part of the EGEE infrastructure, The EIS team, LCG Service Coordination Team, OSG operations team, EGEE operations team, EGEE ROC managers, WLCG coordination representatives, other site representatives (optional), GGUS representatives, other VO representatives

Mandate

- Provides the operational coordination across the sites taking part in the LCG services, as well as providing the basic operational coordination of the EGEE grid infrastructure.
- Discusses and solves operational issues from the previous week, as raised by ROCs and VOs.
- ROCs and VOs are supposed to send their weekly reports well before the meeting and to raise in advance the issues to discuss.
- The operational issues at Tier-2 sites that do not attend the meeting are the handled through the EGEE Regional Operations Centres and the US Tier-1s.
- The LCG SC Team provides the link with the experiments, and ensures that the planning and operational issues of the LCG services are fed into the meeting.
- Problems and action are discussed, assigned to the relevant teams, and followed-up at the Operations Meeting until they are solved or escalated.

Service Coordination Meeting (SCM)

Weekly Meeting (chair J.Shiers)

Agenda: <http://indico.cern.ch/categoryDisplay.py?categId=654>

Mailing list: lcg-service-coordination-meeting@cern.ch

Participants

Service Coordination Team, the EIS team, the people responsible for the major LCG services at CERN (Service responsables from IT-FIO, IT-PSS, IT-GD)

Mandate

- Reports and discusses issues with each LCG service, those at CERN and those on other sites.
- Defines priorities of bug fixes discussing each of them between users and service providers
- Defines and discusses the deployment and delivery of the CERN services

Additional Information

The Operations Coordination team: Maite Barroso and Nicholas Thackray

The Service Coordination team: Jamie Shiers, Harry Renshall, James Casey, Maarten Litmaath, Flavia Donno

The Experiment Integration Support (EIS) team: Andrea Sciaba, Simone Campana, Patricia Mendez Lorenzo, Roberto Santinelli
