ICHEP 2016 Chicago

38th INTERNATIONAL CONFERENCE ON HIGH ENERGY PHYSICS

AUGUST 3 - 10, 2016 CHICAGO

Contribution ID: 277

Type: Oral Presentation

Testing Neutrino Mass Models at the LHC and beyond (15' + 3')

Friday 5 August 2016 09:35 (18 minutes)

We will review the current status and future prospects of testing some simple neutrino mass mechanisms at the energy frontier, with particular emphasis on the ongoing searches at the LHC, as well as some recent theoretical developments to enhance the sensitivity. We will also discuss the complementarity with various low-energy probes at the intensity frontier.
