

**38th INTERNATIONAL CONFERENCE
ON HIGH ENERGY PHYSICS**

AUGUST 3 - 10, 2016
CHICAGO

Contribution ID: 697

Type: **Poster**

projecting pARTicles, a STEAM project

Saturday, August 6, 2016 6:00 PM (2 hours)

Agnes Chavez is a media artist based in the US (New Mexico) and involved in STEM Art Labs. An informal partnership initiated with some ATLAS physicists will develop further in 2016 through a series of workshops where Virtual Visits, Master Class material and the presence of a physicist will be gradually integrated. The project can be seen as an illustration of constructive and long term collaboration between artists, students and scientists.

Presenter: FLORES CASTILLO, Luis Roberto (The Chinese University of Hong Kong (HK))

Session Classification: Poster Session

Track Classification: Education and Outreach
