

2016 machine configuration: can we get to 40 cm?

Thursday 17 December 2015 08:30 (20 minutes)

Outcome of series of beta* MD, proposal for configuration for 40cm (summarizing ABP inputs - coll, BB, impedance, and MPP constraints)

Alternative configurations (50cm? risk mitigation vs lumi gain)

Presenter: BRUCE, Roderik

Session Classification: 2016
