

Session Program

21-23 Sept 2015

Collaboration meeting on DS 11T Dipole grounds

Part II - Conductor, technology development and fabrication

CERN, 927/1-B23
Fermilab

Monday 21 September

10:15

Part II - Conductor, technology development and fabrication

Session | **Location:** CERN, 927/1-B23, Fermilab

10:15–10:35 **FNAL Conductor and cable development**

Speaker

Emanuela Barzi

10:35–10:55 **CERN conductor and cable development**

Speaker

Bernardo Bordini

10:55–11:35 **FNAL technological choices, cable insulation and coils**

Speaker

Nikolai Andreev

11:35–12:15 **FNAL assembly and parameters**

Speaker

Igor Novitski

12:15–13:45 **Lunch Break**

13:45–14:30 **Visit of the magnet and cable fabrication facility in IB3**

14:30–15:10 **CERN technologies choices, cable insulations and coils**

Speaker

David Smekens

15:10–15:40 **CERN Model assembly and sensitivity to shimming**

Speaker

Christian Hannes Loffler

15:40–16:00 **Coffee Break**

16:00–17:30 **Design and technology discussion**

17:30–18:00 **Time reserved to draft conclusions**

18:00
